

**When the scanner has been detected a window asks me where I wish to save the drivers.**

If you are asked where you wish to save the scanner's drivers a problem must have occurred during installation of the Scan@home software.

- Disconnect the scanner from the computer.
- Click on Delete in the driver installation window.
- Click on Start/Settings/Control Panel.
- Double-click on the Add/Delete Programs icon.

- Select Scan@home V4.02.
- Click on Add/Delete to uninstall the scanner's drivers.
- Select ScanButton.
- Click on Add/Delete.
- Install the scanner by following the instructions in the manual.
