How can I find and change the name of my computer and the name of my workgroup on a system running Windows Millennium Edition?

To identify your system settings, proceed to your computer's *"Control Panel"*. To do so, click *"Start/Settings/Control Panel"*. Double-click the *"Network"* icon.

In the *"Network"* window, select the *"Identification"* tab. You can now change the computer name as well as the workgroup name used.

Network ?X
Configuration Identification Access Control
Windows uses the following information to identify your computer on the network. Please type a name for this computer, the workgroup it will appear in, and a short description of the computer.
Computer name: WiFi
Workgroup: Workgroup
Computer Description:
OK Cancel

After validating your selections by clicking "OK", you must restart your computer for the changes to be taken into account.
